

I am writing to express what a positive impact K-Love radio has on my family's life as well as the lives of many other families I know. It is so wonderful to have a place that plays positive kid friendly music on the radio. As a mother of 3 children I am in my car often and it gives me such peace to have a safe place on my radio for me and my kids. The music of K-Love encourages us to live better lives, serving others. It would be a great loss to my family and many others in my community if K-Love was taken off the air.
